Greater Good Council

VISION

Provide Nevada's philanthropists with timely information and best practices about strategic philanthropy that will help inform grantmaking decisions.

ABOUT THE COUNCIL

Established in 2013, the Greater Good Council (GGC) is an initiative of The Moonridge Foundation that convenes private philanthropic leaders and family foundations quarterly in Northern and Southern Nevada. The GGC focuses on transforming our State through strategic philanthropic giving, community engagement, and collective impact. With diverse representation from varied philanthropic experience, demographic, and giving capacity, the GGC develops members through dynamic programming in alignment with the Council's stated values.
